Chemical Physics

Subject index to volume 223

Methods and constructs

Theoretical

Computational methods for electronic structure

Ab initio study of the potential energy surfaces for the valence and Rydberg doublet electronic states of HNF, W.-H. Fang, M. Peric and S.D. Peyerimhoff 223 (1997) 119
Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131
Ab initio prediction of the spectra of carbon cumulenes, G. Fischer and J.P. Maier 223 (1997) 149
Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159

-CI and valence bond approach

Theoretical study of the absorption spectrum of the pseudorotating $Na_3(B)$, R. de Vivie-Riedle, J. Gaus, V. Bonačić-Koutecký, J. Manz, B. Reischl-Lenz and P. Saalfrank 223 (1997) 1
Excitation of the methyl methacrylate molecule in the VUV range by angle-resolved EELS, M.L.M. Rocco, M.C.A. Lopes, C.A. Lucas, E. Hollauer, E.E. Monteiro and G.G.B. de Souza 223 (1997) 15

-perturbative and many body approaches

On the triple-dipole dispersion energy for non-spherical molecules with an application to the O_2–O_2–O_2 interaction, S.A.C. McDowell and W.J. Meath 223 (1997) 23

Semiempirical methods

Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159
Ground and excited state properties of the cationic and anionic first-row transition-metal oxide diatomics calculated by an improved ASED-MO model, E.G. Bakalbassis, M.-A.D. Stiakaki, A.C. Tsipis and C.A. Tsipis 223 (1997) 169
Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183

Spin states and magnetic interactions

Biquadratic exchange results in strong splittings and shifts of spin levels of $[Fe_4S_4]^+$ clusters in Heisenberg and double exchange models, M.I. Belinsky 223 (1997) 195

Intramolecular dynamics
N-atom molecular systems: bunch of relative position vectors, local coordinates and quantum-mechanical kinetic energy operators, Y. Justum, M. Menou, A. Nauts and X. Chapuisat 223 (1997) 211
Production of Rg^+ ions in the resonance-enhanced multiphoton ionization spectroscopy of $Rg \cdot NO$ (Rg = Ar, Kr and Xe), A.M. Bush, J.M. Dyke, P. Mack, D.M. Smith and T.G. Wright 223 (1997) 239

Molecular dynamics of many particle systems and condensed phases
On the triple-dipole dispersion energy for non-spherical molecules with an application to the O_2–O_2–O_2 interaction, S.A.C. McDowell and W.J. Meath 223 (1997) 23
Deuteration effect on the structural phase transitions of hydrogen bonded-dielectric TlH_2AsO_4: a vibrational study, B. Pasquier, N. Le Calvé and Z. Ouafik 223 (1997) 33
Time resolved fluorescence of N,N-dimethylaminobenzonitrile in glycerol triacetate: experimental results and model interpretation, G. Saielli, A. Polimeno, P.L. Nordio, P. Bartolini, M. Ricci and R. Righini 223 (1997) 51
Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183
MD study of an infinitely dilute aqueous solution of formaldehyde using different ab initio potentials, S. Tolosa and J.A. Sansón 223 (1997) 251

Time and space correlation functions
Theoretical study of the absorption spectrum of the pseudorotating $Na_3(B)$, R. de Vivie-Riedle, J. Gaus, V. Bonačić-Koutecký, J. Manz, B. Reischl-Lenz and P. Saalfrank 223 (1997) 1

Experiment

-Molecular spectroscopy
Deuteration effect on the structural phase transitions of hydrogen bonded-dielectric TlH_2AsO_4: a vibrational study, B. Pasquier, N. Le Calvé and Z. Ouafik 223 (1997) 33
Absolute scale determination for photoabsorption spectra and the calculation of molecular properties using dipole sum-rules, T.N. Olney, N.M. Cann, G. Cooper and C.E. Brion 223 (1997) 59
Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159
Raman-like pumping from long range excited alkali atom–alkali dimer interactions, D.R. Grantier and J.L. Gole 223 (1997) 259
Chemically induced resonance Raman scattering in cesium dimer, D.R. Grantier and J.L. Gole 223 (1997) 273

-infrared
Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131
IR-induced interconversions between five conformers of methanol dimers trapped in nitrogen matrix, S. Coussan, A. Loutellier, J.P. Perchard, S. Racine, A. Peremans, A. Tadjeddine and W.Q. Zheng 223 (1997) 279

-Raman
Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131

-UV
Ab initio prediction of the spectra of carbon cumulenes, G. Fischer and J.P. Maier 223 (1997) 149

Calorimetric methods
Chemical metastability loss and molecular dynamics by dielectric relaxations during the catalytic polymerization of a diepoxide, D.A. Wasylyshyn, G.P. Johari, E. Tombari and G. Salvetti 223 (1997) 313

Photon counting and phase fluorimetry
Complexation of aliphatic amines with carbazole in the S_o and S_1 states: Solvent effect on the deactivation of the excited complex, P. Bortolus, S. Monti, G. Galiazzo and G. Gennari 223 (1997) 99

Multiphoton ionization
Production of Rg^+ ions in the resonance-enhanced multiphoton ionization spectroscopy of $Rg \cdot NO$ (Rg = Ar, Kr and Xe), A.M. Bush, J.M. Dyke, P. Mack, D.M. Smith and T.G. Wright 223 (1997) 239

X-ray spectroscopy
Sulfur K-shell photoabsorption spectroscopy of the sulfanes $R–S_n–R$, $n = 2–4$, R. Chauvistré, J. Hormes, E. Hartmann, N. Etzenbach, R. Hosch and J. Hahn 223 (1997) 293

Electron impact spectroscopy
Excitation of the methyl methacrylate molecule in the VUV range by angle-resolved EELS, M.L.M. Rocco, M.C.A. Lopes, C.A. Lucas, E. Hollauer, E.E. Monteiro and G.G.B. de Souza 223 (1997) 15

Laser induced fluorescence
Time resolved fluorescence of N,N-dimethylaminobenzonitrile in glycerol triacetate: experimental results and model interpretation, G. Saielli, A. Polimeno, P.L. Nordio, P. Bartolini, M. Ricci and R. Righini 223 (1997) 51

Ultrafast measurements
Oscillating anisotropies in a bacteriochlorophyll protein: Evidence for quantum beating between exciton levels, S. Savikhin, D.R. Buck and W.S. Struve 223 (1997) 303

Mössbauer spectroscopy
Point defects in neutron-irradiated MoO_3 studied by $^{99}Mo(\beta^-)^{99}Tc$ perturbed angular correlation, X. Ni, G. Sun, M. Ceolín, M.A. Taylor, W. Tröger and T. Butz 223 (1997) 109

Objects

Bulk systems

Gases

Excitation of the methyl methacrylate molecule in the VUV range by angle-resolved EELS, M.L.M. Rocco, M.C.A. Lopes, C.A. Lucas, E. Hollauer, E.E. Monteiro and G.G.B. de Souza 223 (1997) 15
Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131
Ab initio prediction of the spectra of carbon cumulenes, G. Fischer and J.P. Maier 223 (1997) 149
N-atom molecular systems: bunch of relative position vectors, local coordinates and quantum-mechanical kinetic energy operators, Y. Justum, M. Menou, A. Nauts and X. Chapuisat 223 (1997) 211
Chemically induced resonance Raman scattering in cesium dimer, D.R. Grantier and J.L. Gole 223 (1997) 273

Supersonic beams

Production of Rg^+ ions in the resonance-enhanced multiphoton ionization spectroscopy of $Rg \cdot NO$ (Rg = Ar, Kr and Xe), A.M. Bush, J.M. Dyke, P. Mack, D.M. Smith and T.G. Wright 223 (1997) 239
Raman-like pumping from long range excited alkali atom–alkali dimer interactions, D.R. Grantier and J.L. Gole 223 (1997) 259

Liquids neat

Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183

Liquid mixtures and solutions

Time resolved fluorescence of N,N-dimethylaminobenzonitrile in glycerol triacetate: experimental results and model interpretation, G. Saielli, A. Polimeno, P.L. Nordio, P. Bartolini, M. Ricci and R. Righini 223 (1997) 51
Complexation of aliphatic amines with carbazole in the S_o and S_1 states: Solvent effect on the deactivation of the excited complex, P. Bortolus, S. Monti, G. Galiazzo and G. Gennari 223 (1997) 99
Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159
MD study of an infinitely dilute aqueous solution of formaldehyde using different ab initio potentials, S. Tolosa and J.A. Sansón 223 (1997) 251

Crystals

Deuteration effect on the structural phase transitions of hydrogen bonded-dielectric TlH_2AsO_4: a vibrational study, B. Pasquier, N. Le Calvé and Z. Ouafik 223 (1997) 33
Point defects in neutron-irradiated MoO_3 studied by $^{99}Mo(\beta^-)^{99}Tc$ perturbed angular correlation, X. Ni, G. Sun, M. Ceolín, M.A. Taylor, W. Tröger and T. Butz 223 (1997) 109

Polymers
Chemical metastability loss and molecular dynamics by dielectric relaxations during the catalytic polymerization of a diepoxide, D.A. Wasylyshyn, G.P. Johari, E. Tombari and G. Salvetti 223 (1997) 313

Dielectrics
Chemical metastability loss and molecular dynamics by dielectric relaxations during the catalytic polymerization of a diepoxide, D.A. Wasylyshyn, G.P. Johari, E. Tombari and G. Salvetti 223 (1997) 313

Biological systems
Oscillating anisotropies in a bacteriochlorophyll protein: Evidence for quantum beating between exciton levels, S. Savikhin, D.R. Buck and W.S. Struve 223 (1997) 303

Microscopic and mesoscopic systems

Single atoms, molecules and assemblies (incl. biological)
Absolute scale determination for photoabsorption spectra and the calculation of molecular properties using dipole sum-rules, T.N. Olney, N.M. Cann, G. Cooper and C.E. Brion 223 (1997) 59

Molecules (neutral and ionic)
Theoretical study of the absorption spectrum of the pseudorotating $Na_3(B)$, R. de Vivie-Riedle, J. Gaus, V. Bonačić-Koutecký, J. Manz, B. Reischl-Lenz and P. Saalfrank 223 (1997) 1
Absolute scale determination for photoabsorption spectra and the calculation of molecular properties using dipole sum-rules, T.N. Olney, N.M. Cann, G. Cooper and C.E. Brion 223 (1997) 59
N-atom molecular systems: bunch of relative position vectors, local coordinates and quantum-mechanical kinetic energy operators, Y. Justum, M. Menou, A. Nauts and X. Chapuisat 223 (1997) 211

-diatomic
Ground and excited state properties of the cationic and anionic first-row transition-metal oxide diatomics calculated by an improved ASED-MO model, E.G. Bakalbassis, M.-A.D. Stiakaki, A.C. Tsipis and C.A. Tsipis 223 (1997) 169
Raman-like pumping from long range excited alkali atom–alkali dimer interactions, D.R. Grantier and J.L. Gole 223 (1997) 259
Chemically induced resonance Raman scattering in cesium dimer, D.R. Grantier and J.L. Gole 223 (1997) 273

-small polyatomics
Ab initio study of the potential energy surfaces for the valence and Rydberg doublet electronic states of HNF, W.-H. Fang, M. Peric and S.D. Peyerimhoff 223 (1997) 119

-aromatics
Time resolved fluorescence of N,N-dimethylaminobenzonitrile in glycerol triacetate: experimental results and model interpretation, G. Saielli, A. Polimeno, P.L. Nordio, P. Bartolini, M. Ricci and R. Righini 223 (1997) 51
Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183

-other large
Excitation of the methyl methacrylate molecule in the VUV range by angle-resolved EELS, M.L.M. Rocco, M.C.A. Lopes, C.A. Lucas, E. Hollauer, E.E. Monteiro and G.G.B. de Souza 223 (1997) 15
Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159
Sulfur K-shell photoabsorption spectroscopy of the sulfanes R–S_n–R, $n = 2$–4, R. Chauvistré, J. Hormes, E. Hartmann, N. Etzenbach, R. Hosch and J. Hahn 223 (1997) 293

Molecular aggregates
On the triple-dipole dispersion energy for non-spherical molecules with an application to the O_2–O_2–O_2 interaction, S.A.C. McDowell and W.J. Meath 223 (1997) 23
N-atom molecular systems: bunch of relative position vectors, local coordinates and quantum-mechanical kinetic energy operators, Y. Justum, M. Menou, A. Nauts and X. Chapuisat 223 (1997) 211

-dimers
IR-induced interconversions between five conformers of methanol dimers trapped in nitrogen matrix, S. Coussan, A. Loutellier, J.P. Perchard, S. Racine, A. Peremans, A. Tadjeddine and W.Q. Zheng 223 (1997) 279

-clusters
Theoretical study of the absorption spectrum of the pseudorotating Na_3(B), R. de Vivie-Riedle, J. Gaus, V. Bonačić-Koutecký, J. Manz, B. Reischl-Lenz and P. Saalfrank 223 (1997) 1
Biquadratic exchange results in strong splittings and shifts of spin levels of $[Fe_4S_4]^+$ clusters in Heisenberg and double exchange models, M.I. Belinsky 223 (1997) 195

-complexes
Complexation of aliphatic amines with carbazole in the S_o and S_1 states: Solvent effect on the deactivation of the excited complex, P. Bortolus, S. Monti, G. Galiazzo and G. Gennari 223 (1997) 99
Production of Rg^+ ions in the resonance-enhanced multiphoton ionization spectroscopy of $Rg \cdot NO$ (Rg = Ar, Kr and Xe), A.M. Bush, J.M. Dyke, P. Mack, D.M. Smith and T.G. Wright 223 (1997) 239

Phenomena

Molecular structure
Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131
Ab initio prediction of the spectra of carbon cumulenes, G. Fischer and J.P. Maier 223 (1997) 149

Vibrations and rotations of molecules
Theoretical study of the absorption spectrum of the pseudorotating Na_3(B), R. de Vivie-Riedle, J. Gaus, V. Bonačić-Koutecký, J. Manz, B. Reischl-Lenz and P. Saalfrank 223 (1997) 1

Infrared and Raman spectra, conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignments for dichlorofluoroacetyl fluoride, G.A. Guirgis, Y. Jin, P. Klaeboe and J.R. Durig 223 (1997) 131
N-atom molecular systems: bunch of relative position vectors, local coordinates and quantum-mechanical kinetic energy operators, Y. Justum, M. Menou, A. Nauts and X. Chapuisat 223 (1997) 211

Electronic structure and states
Excitation of the methyl methacrylate molecule in the VUV range by angle-resolved EELS, M.L.M. Rocco, M.C.A. Lopes, C.A. Lucas, E. Hollauer, E.E. Monteiro and G.G.B. de Souza 223 (1997) 15
Ab initio study of the potential energy surfaces for the valence and Rydberg doublet electronic states of HNF, W.-H. Fang, M. Peric and S.D. Peyerimhoff 223 (1997) 119
Ab initio prediction of the spectra of carbon cumulenes, G. Fischer and J.P. Maier 223 (1997) 149
Ground and excited state properties of the cationic and anionic first-row transition-metal oxide diatomics calculated by an improved ASED-MO model, E.G. Bakalbassis, M.-A.D. Stiakaki, A.C. Tsipis and C.A. Tsipis 223 (1997) 169
Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183

Structure of solids, liquids and glasses
Point defects in neutron-irradiated MoO_3 studied by $^{99}Mo(\beta^-)^{99}Tc$ perturbed angular correlation, X. Ni, G. Sun, M. Ceolín, M.A. Taylor, W. Tröger and T. Butz 223 (1997) 109

Critical behavior and phase transitions
Deuteration effect on the structural phase transitions of hydrogen bonded-dielectric TlH_2AsO_4: a vibrational study, B. Pasquier, N. Le Calvé and Z. Ouafik 223 (1997) 33

Molecular self-assembly and -organization
On the triple-dipole dispersion energy for non-spherical molecules with an application to the O_2–O_2–O_2 interaction, S.A.C. McDowell and W.J. Meath 223 (1997) 23

Thermodynamic and transport properties
MD study of an infinitely dilute aqueous solution of formaldehyde using different ab initio potentials, S. Tolosa and J.A. Sansón 223 (1997) 251
Chemical metastability loss and molecular dynamics by dielectric relaxations during the catalytic polymerization of a diepoxide, D.A. Wasylyshyn, G.P. Johari, E. Tombari and G. Salvetti 223 (1997) 313

Spin splittings
Biquadratic exchange results in strong splittings and shifts of spin levels of $[Fe_4S_4]^+$ clusters in Heisenberg and double exchange models, M.I. Belinsky 223 (1997) 195

Optical activity
Semiempirical quantum-chemical assignment of the circular dichroism spectra of small chiral fullerenes, M. Fanti, G. Orlandi, G. Poggi and F. Zerbetto 223 (1997) 159

Molecular interactions
On the triple-dipole dispersion energy for non-spherical molecules with an application to the O_2–O_2–O_2 interaction, S.A.C. McDowell and W.J. Meath 223 (1997) 23

Absolute scale determination for photoabsorption spectra and the calculation of molecular properties using dipole sum-rules, T.N. Olney, N.M. Cann, G. Cooper and C.E. Brion 223 (1997) 59
Theoretical study of the solvatochromism of a merocyanine dye, S.F. Alberti and J. Echave 223 (1997) 183
MD study of an infinitely dilute aqueous solution of formaldehyde using different ab initio potentials, S. Tolosa and J.A. Sansón 223 (1997) 251
Raman-like pumping from long range excited alkali atom–alkali dimer interactions, D.R. Grantier and J.L. Gole 223 (1997) 259
Chemically induced resonance Raman scattering in cesium dimer, D.R. Grantier and J.L. Gole 223 (1997) 273

Spectral bandshapes and intensities
Absolute scale determination for photoabsorption spectra and the calculation of molecular properties using dipole sum-rules, T.N. Olney, N.M. Cann, G. Cooper and C.E. Brion 223 (1997) 59

Energy transfer processes
Raman-like pumping from long range excited alkali atom–alkali dimer interactions, D.R. Grantier and J.L. Gole 223 (1997) 259
Chemically induced resonance Raman scattering in cesium dimer, D.R. Grantier and J.L. Gole 223 (1997) 273

Molecular photophysical processes
Time resolved fluorescence of N,N-dimethylaminobenzonitrile in glycerol triacetate: experimental results and model interpretation, G. Saielli, A. Polimeno, P.L. Nordio, P. Bartolini, M. Ricci and R. Righini 223 (1997) 51
Complexation of aliphatic amines with carbazole in the S_o and S_1 states: Solvent effect on the deactivation of the excited complex, P. Bortolus, S. Monti, G. Galiazzo and G. Gennari 223 (1997) 99

Photochemistry
Ab initio study of the potential energy surfaces for the valence and Rydberg doublet electronic states of HNF, W.-H. Fang, M. Peric and S.D. Peyerimhoff 223 (1997) 119

Intramolecular dynamics
Sulfur K-shell photoabsorption spectroscopy of the sulfanes R–S_n–R, $n = 2$–4, R. Chauvistré, J. Hormes, E. Hartmann, N. Etzenbach, R. Hosch and J. Hahn 223 (1997) 293

-vibrational energy redistribution (incl. vibrational dissociation)
IR-induced interconversions between five conformers of methanol dimers trapped in nitrogen matrix, S. Coussan, A. Loutellier, J.P. Perchard, S. Racine, A. Peremans, A. Tadjeddine and W.Q. Zheng 223 (1997) 279

Coherence loss processes
Oscillating anisotropies in a bacteriochlorophyll protein: Evidence for quantum beating between exciton levels, S. Savikhin, D.R. Buck and W.S. Struve 223 (1997) 303

Proton and hydrogen atom transfer
Complexation of aliphatic amines with carbazole in the S_o and S_1 states: Solvent effect on the deactivation of the excited complex, P. Bortolus, S. Monti, G. Galiazzo and G. Gennari 223 (1997) 99

Ionization (incl. Rydberg states)
Ab initio study of the potential energy surfaces for the valence and Rydberg doublet electronic states of HNF, W.-H. Fang, M. Peric and S.D. Peyerimhoff 223 (1997) 119
Production of Rg^+ ions in the resonance-enhanced multiphoton ionization spectroscopy of $Rg \cdot NO$ (Rg = Ar, Kr and Xe), A.M. Bush, J.M. Dyke, P. Mack, D.M. Smith and T.G. Wright 223 (1997) 239

Molecular motion (incl. diffusive)
Chemical metastability loss and molecular dynamics by dielectric relaxations during the catalytic polymerization of a diepoxide, D.A. Wasylyshyn, G.P. Johari, E. Tombari and G. Salvetti 223 (1997) 313

Isotopic effects
Deuteration effect on the structural phase transitions of hydrogen bonded-dielectric TlH_2AsO_4: a vibrational study, B. Pasquier, N. Le Calvé and Z. Ouafik 223 (1997) 33
